EDUCATION

🎓 **Bachelor of Engineering**
Computer Science and Engineering
Panimalar Engineering College
Graduation Year: 2027

🎓 **Higher Secondary Education**
(Class XII)
AIM Matrix Higher Secondary School,
Tamil Nadu
Percentage: 84%

🎓 **Secondary School Education**
(Class X)
Jeeva Velu International School,
Tamil Nadu
Percentage: 92%

PROFESSIONAL SUMMARY

Entry-level Security Engineer with hands-on experience in vulnerability assessment, SIEM monitoring, incident detection, and AI/ML-based fraud detection. Strong foundation in network security, ethical hacking, and threat analysis with practical exposure to industry security tools and frameworks.

TECHNICAL SKILL

- ✓ Cybersecurity & Networking
- ✓ Network Security (TCP/IP, DNS, HTTP/HTTPS)
- ✓ Vulnerability Assessment & Incident Response
- ✓ Web Application Security (OWASP Top 10)
- ✓ Security Tools
- ✓ Nmap, Nessus
- ✓ Burp Suite, Metasploit
- ✓ Wireshark, Splunk (SIEM)
- ✓ Kali Linux
- ✓ Frameworks & Standards
- ✓ NIST Cybersecurity Framework
- ✓ MITRE ATT&CK
- ✓ ISO/IEC 27001 (Awareness)
- ✓ Programming & Platforms
- ✓ Python, SQL, Bash
- ✓ Linux (Kali, Ubuntu)
- ✓ AWS Cloud Fundamentals

RESEARCH, CONFERENCE & TECHNICAL ACTIVITIES

🔍 Paper Presentation

- Automated Depression Predict Using NLP

🏛️ International Conference

- International Conference on Intelligent Systems for Sustainable Future (**ISSF 2025**)
- Organized by **CHRIST** (Deemed to be University) Bengaluru
- Participated in **cybersecurity hackathons** and **technical workshops**
- Attended hands-on **workshops on Ethical Hacking Kali Linux, and AI in Cybersecurity**

PROJECTS

AI-Based Fraudulent Message Detection System

Technologies: Python, Machine Learning, NLP

- Developed an ML-based system to detect phishing and fraudulent messages
- Implemented NLP techniques for text preprocessing and Classification
- Strengthened protection against social engineering attacks

Network Vulnerability Assessment

Technologies: Nmap, Nessus, Linux

- Identified open ports, vulnerabilities, and misconfigurations
- Prioritized risks based on severity and impact
- Documented remediation strategies

Web Application Penetration Testing

Technologies: Burp Suite, OWASP

- Tested applications against OWASP Top 10 vulnerabilities
- Identified SQL Injection and XSS vulnerabilities
- Recommended secure coding practices

SIEM-Based Security Monitoring

Technologies: Splunk, Linux

- Monitored system and network logs for suspicious activity
- Configured alerts for unauthorized access attempts
- Assisted in incident analysis

INTERNSHIPS & INDUSTRIAL TRAINING

Cyber Security Intern – NSIC (National Small Industries Corporation)

Performed vulnerability scanning and basic penetration testing
Worked with industry-standard cybersecurity tools
Gained practical exposure to security assessment workflows

Penetration Testing Intern – Cybertronium

Hands-on penetration testing using Kali Linux tools
Practiced reconnaissance, scanning, and exploitation techniques
Learned offensive and defensive security methodologies

Cybersecurity Training – Bits N' Bytes Cybersecurity Education Corp., USA

Participated in structured cybersecurity education programs
Gained exposure to global cybersecurity practices and threat awareness

CERTIFICATIONS & PROFESSIONAL MEMBERSHIPS

IEEE Student Member (2025)

- Institute of Electrical and Electronics Engineers

IEEE Student Member (2025)

Penetration Tester Certification

- Cybertronium Ethical Hacking NSIC Oracle Cloud Infrastructure 2024 Foundations Associate
- Score: 90%**

Introduction to Information Technology and AWS Cloud

- Amazon Web Services (Coursera)

Data Science

- Machine Learning (PH125.8x :) – HarvardX (edX)

AI / Machine Learning Fundamentals

- HarvardX / Coursera
